PREPARED. QUALIFIED. EXPERIENCED.

Certified as a DBE and W/MBE provider in 2018, we have grown to become an integral business partner by providing a wide range of environmental solutions for planning, permitting, engineering, construction and manufacturing projects.

AEC established itself as one of the Southeast's top environmental engineering and consulting services firms and we now serve customers nationwide across environmental, transportation, energy, educational, healthcare, hospitality and commercial sectors.

ALPHA ENVIROTECH
CONSULTING

Clients rely on our commitment to quality, efficiency, value, environmental stewardship and cross-disciplinary solutions.

We are best known for expertise in these roles:

- » Phase I, II, III, IV Environmental Site Assessments
- » Contamination Assessment & Remediation
- » Engineering
- » Ecological Services
- » Cultural Resources
- » Industrial Hygiene
- » Dewatering Plans / Groundwater Modeling
- » Construction Permitting & Compliance
- » Sustainable Building Services- LEED, WELL
- » Environmental Project Management for Federal Design-Build/ Construction

Our commitment to both our clients and communities results in many measurable and meaningful quality of life improvements. By focusing on our clients' immediate objectives and long-term goals, our reputation for excellence and responsiveness has prospered. All of our professional staff have advanced degrees and work to achieve and exceed sustainable objectives by eliminating wasteful practices and promoting environmental stewardship.

PARTNERING TODAY FOR TOMORROW'S SUCCESS
